Public Notice of Successful Bidders and Average Prices

Illinois Power Agency
Supplemental Spring 2022 Procurement of
Standard Energy Blocks

May 20, 2022

On April 18, 2022, the Illinois Power Agency's procurement administrator, NERA Economic Consulting, received bids for the sale of standard energy blocks to Ameren Illinois Company ("Ameren"), Commonwealth Edison Company ("ComEd"), and MidAmerican Energy Company ("MidAmerican") through a bidding process conducted pursuant to the procurement plan approved by the Illinois Commerce Commission ("Commission") in Docket No. 21-0717. The bidding process was monitored for the Commission by Bates White. On April 21, 2022, voting in open session, the Commission approved the procurement administrator's selection of winning bids.

The April 18, 2022 procurement event procured only a portion of the targeted supply for Ameren and ComEd and procured no quantities for MidAmerican. Because the April 18 procurement event did not procure all targeted quantities, and in accordance with Section 16-111.5 of the Illinois Power Agency ("IPA") Act, NERA, Bates White and the ICC Staff met within 10 days of the April 18 bid day to analyze the potential causes of the unfilled targets and to determine whether to hold a supplemental procurement event within 90 days to target any unfilled quantities. The parties determined that a supplemental procurement event should be held to target any unfilled quantities for the months June 2022 to September 2022. Any unfilled quantities in months beyond September 2022 will be added to procurement targets for the Fall 2022 procurement events.

On May 16, 2022, the Illinois Power Agency's procurement administrator, NERA Economic Consulting, received bids for the sale of standard energy blocks to Ameren, ComEd, and MidAmerican for the months June 2022 to September 2022. The bidding process was monitored for the Commission by Bates White. On May 20, 2022, voting in open session, the Commission approved the procurement administrator's selection of winning bids.

In accordance with Section 16-111.5(h) of the Public Utilities Act, this public notice announces the names of the successful bidders and the average winning bid price for each contract type and for each contract term. 220 ILCS 5/16-111.5(h). In accordance with the RFP rules and previous Commission orders, quantity information is also provided where the number of successful bidders is greater than two.

Supplemental Procurement of Standard Energy Blocks
Public Notice of Bidding Results**

With each standard energy block contract, the same quantity is delivered each hour of the indicated time period – either the on-peak or the off-peak hours of one or more specified months. On-peak hours are a particular contiguous 16 hours in the middle of each non-holiday week-day, while off-peak hours are all other hours.
